

Alka-C Complex

Alka-C Complex is a high-potency vitamin C powder, which allows for flexible dosing, formulated to meet healthcare practitioners' vitamin C concerns and includes bioflavonoids. High levels of vitamin C are buffered with calcium and magnesium that is then blended with acerola cherry to provide the essential cofactors.

Synergistic Considerations

Alka-C Complex is beneficial in combination with most healing strategies and for daily use.

Ingredients

Vitamin C (from Ascorbic Acid, Acerola Cherry Powder Extract, Calcium Ascorbate, Magnesium Ascorbate) – Ascorbic acid is a practical and bioavailable solution for therapeutic doses of vitamin C. One thousand mg of ascorbic acid is equal to 14 oranges or 10 cups of cooked broccoli.

Magnesium – Provides a buffering effect for the ascorbic acid; magnesium is also a source of additional vitamin C, while playing a key role in metabolism.

Acerola Cherry Powder Extract – Is known as a high, natural source of vitamin C. As a natural source, it contains co-nutrients such as bioflavonoids to assist with absorption.

Quercetin Dihydrate – The flavonol, quercetin, is an antioxidant that provides broad health benefits and is an excellent complement to vitamin C.

Manuka Honey – The nectar of New Zealand's manuka flower, this superior honey is included to enhance the flavor.
